Congratulations!

You have successfully joined the 5th nutritionDay audit!!

The next steps in the progress of the worldwide project are:

Data transfer

Similar to previous years, data entry will be possible online via our website www.nutritionday.org. Click >*data* and choose your category (hospital, ICU or nursing home) under the headline “*electronic data transfer*”. The links to the online databases are activated already.

Please notice that for operational reasons from now on data entry must ONLY be handled online!

nutritionDay in Hospitals: OUTCOME EVALUATION starting on February 20th 2010

Part of the nutritionDay audit is to assess the patient’s status 30 days after nutritionDay. Please complete the fields “date of hospital discharge” and “outcome hospital discharge” on the Unit Patient List that has been partly filled on nutritionDay. This information should be gathered from your centre’s patient administrative system. Do not contact the patients themselves.

Outcome Evaluation – ICU and Nursing Homes

Outcomes for **nutritionDay in ICU** must be evaluated after 60 days (beginning March 22nd).

Outcomes for **nutritionDay in Nursing Homes** must be evaluated 6 months after nDay (beginning July 20th).

All facebook users have the possibility to become a friend of nutritionDay worldwide!
